## Secure Your Credential

Most are familiar with RFID/contactless identification cards or PIV credentials, like those required by federal mandate FIPS-201. What you may not know is that anyone with ill intent can easily skim the confidential information directly from your RFID/contactless card and then duplicate it without your ever knowing.

In addition, the mandate also stipulates that you should employ technology to protect against any unauthorized access to the information stored on a PIV credential.

The Skim SAFE badge holder accomplishes just that by shielding your credential from unauthorized duplication.

### HAVE QUESTIONS?

## Professional Services

Rely on the ID experts to help you identify ways to increase efficiency, reduce redundant processes and trim down costs.

- Aid in the evaluation/decision-making processes
- Evaluation current processes and make recommendations for improvement
- Manage your card issuance program
- Carry out your new badging, track or verification program from employee socialization to support of key personnel

Discover more about our [professional services](#).

## Why Upgrade?

Due to the advent of legacy systems no longer being operable on the newer 32 and 64 bit operating systems, you may be forced to upgrade your current ID Badging system. However, do not let that alone be your only justification to upgrade.

New ID Badging systems have taken advantage of all that technology has to offer and provide end users with:

- Better card and image capture quality
- Increased speed for quicker output
- Smaller components, decreasing overall footprint
- Improved manufacturer warranties
- Enhanced user interface for ease of navigation
- Advanced integration with payroll and access control solutions
- Superior functionality - doing more than just ID's

Incentives to trade-in your legacy systems are available, [contact us](#) to learn how much you can save by upgrading now.

## Specials

### EXPIRING SOON

Custom Badge Reels as low as **\$0.89** each with **FREE Setup**.

Offer Expires on March 31, 2011.

### APRIL SNEAK PEAK

**Go Green**, reduce your carbon footprint with earth friendly accessories. Be sure to contact us come April 1st for details.

Offer expires on April 30, 2011.

### GO Zebra11 Trade-in Program

Expires  
Friday - December 30, 2011

**Skim SAFE**  
FIPS-201 Approved  
Contactless Card Shields

*Every FIPS credential holder should have one.*

It protects your valuable personal data from would-be skimmers and hackers by blocking information transmission to and from your contactless card.

Your card docks inside the SkimSAFE holder, which blocks the flow of signals to and from the internal chip. When you are ready to use the card for access, simply slide it partially out.
