Product Updates

HID Products - Discontinued / Replacements

HID Global has revamped the look of the iCLASS and Prox keys. The functionality has remained the same; only the design has received a face-lift.

Datacard Go Green Upgrade - Required

With only a few weeks remaining in 2011, the time to Go Green is now. The firmware of your Datacard SP, CP and FP Series printers must be updated before the end of the year to make them compatible with the new RFID chips embedded in Datacard Certified Supplies.

It is a free, fast (less than five minutes) and simple firmware update that is necessary for Datacard systems to function with all NEW SUPPLIES. To download this utility, simply follow the instructions at Datacard.com/GoGreen.

Have questions? Here are additional resources to make this upgrade as easy as possible.
