

# Are you processing visitors securely?

Please ask yourself the following questions to ensure that your facility is secure:

- Does your current process maintain a profile for each visitor, vendor, contractor or volunteer, including name, address, current photo, when and why the person visitor your facility?
- Are all visitors required to wear a visitor badge so personnel can challenge anyone without the proper credentials?
- Can a dossier of all visitors, vendors, contractors, and volunteers, be retrieved quickly in the event of an emergency where evacuation must take place?

**Solutions for any size organization and budget!**

## AUTOMATED SYSTEMS

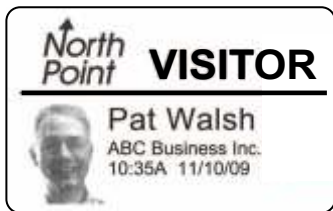

Secure Visitor Management solutions allow organizations to automate the entire process of registering a visitor, printing a badge and capturing detailed information in seconds by simply scanning an ID (such as a driver's license, business card or passport).

*It's as easy as one, two, three...*

- |   |  |  |
|---|--|--|
| <p><b>1. SCAN</b><br/>visitor information<br/>into database</p> | <p><b>2. PRINT</b><br/>badges in<br/>seconds</p> | <p><b>3. PROVIDE</b><br/>professional<br/>quality badges</p> |
|---|--|--|

**VALID Today**

**VOID Tomorrow**

## MANUAL SYSTEMS

Badge friendly systems that provide "security you can see," with products that show who is authorized to be in your facility and who is not with a simple self-expiring badge and duplicate log that changes color overnight, so they can't be reused.
